

Cất Cánh (Takeoff) Fellowship

| The launch pad for Viet talent

VISEMI
FOUNDATION

Founded by Dr. Loi Nguyen (Exec VP Emeritus, Marvell) & VISEMI Foundation

The Gaps

Talent Gap: A massive global shortage of technical professionals in high-level semiconductors and advanced tech.

Overseas Pathways: With limited local MS and PhD opportunities, fully funded programs in regions like the USA or Taiwan offer the strongest paths for talented STEM students.

Systemic Barriers: Surveys and interviews reveal that STEM talent faces financial, language, and strategic roadblocks limiting their access to overseas education.

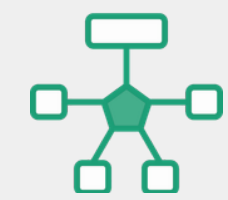

The Bridge: A 6-Month Accelerator

Intensive Prep: Structured English training and application coaching.

Milestone Funding: Up to \$15K per student via a tiered financial support system, covering basic needs, qualified exams, application fees, conferences.

Global Mentorship: Pair with VISEMI ambassadors & worldwide experts.

The Alumni Flywheel: Every fellow commits to mentoring the next cohort, ensuring sustainable growth.

The Impacts

7x to 20x ROI

A ~\$10K Prep Grant can unlock fully-funded scholarships worth ~\$70K (MS) to ~\$200K (PhD).

15 Fellows Funded Year 1 Target

Achieve **80%+** admission success rate with a funding of **\$150K** for grants & operations.

150 Fellows Funded 5-Year Vision

Escalate to a global Viet tech talent network with a budget **under \$2M**.
